Task delegated

1. Literature review (on-going)
2. search for research grants opportunities (started)
3. Web-development (not started)

Literature review

Find literatures in journal or governmental documents recent 5 years with respect main 3 topics in the GBA context. Write a summary for each relevant literature, record their data source, see `s_litre.pdf`

1. Migration, return to education

3. Schools/governments support and policies reform

total 29 journal literature found.

In addition, I wrote a memo for the Labour interaction and mobility between GBA and HK Macau, mainly using the Census and Statistics Department, HKGov, see `./lit/memo.pdf`

3. ORKTS I do not have access yet.

I asked Erika (HKIER EO) for funding opportunities. While I doubt if there is any relevance of their funding opportunities, the following is the results:

1. Quality Education Fund (QEF)
2. DHChen Foundation

Task self initiate

I wrote a web crawler to speed up the search of literatures in the first week, see folder `gsch_crawler`.

Difficulties

- Unclear objectives
 - Despite Prof Ou dedicating explanation, I can’t grasp the big picture and understand what is the research initiative which slows down the work progress.
 - **What is the main question of the research project?**
- Little relevant literatures in GBA context with respect to the assigned topics, there is plenty in country level, however.
 - GBA context literature publishes in `en.cnki.com.cn` such as A Study On Synergic Development Of Guangdong-Hong Kong-Macau Greater Bay Area which is rather rare source of reference.
- Web Development I have the following questions:
 1. What is the objective?
 2. Where is the material?
 3. Who are the members?
 4. What is the name of the centre?
